

The Church Building

Use of the First Congregational Church's lovely facility is available both to members and non-members for weddings.

We have two beautiful spaces for you to choose from for your wedding ceremony: the Sanctuary (shown above) and the Chapel (shown inside).

The Sanctuary was originally built in 1847. It has been remodeled several times but still retains the serene beauty of its New England heritage.

The chapel was newly constructed in 2005. Its rich wood tones, cheerful colors and brilliant stained glass window provide the perfect mood of happiness for a wedding.

Our church facility is accessible to people with mobility impairments. Convenient parking is available in the lot next to the building.
